CLONE 5 ★ A-RGB EDITION

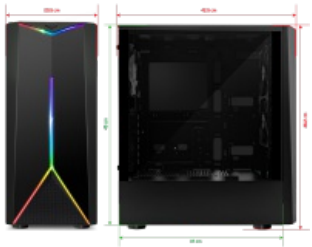
Model: 8903RA

Pimp my Case: Take a good look at the front panel... To protect your configuration, the front panel is made entirely of metal and inlaid with an ARGB LED bar. The lower part of the front panel is also made of "mesh" (perforated) metal and offers an efficient air inlet to cool your components. Delivered with a side panel in tempered glass, this will enhance the interior of your chassis. Clone V is specially designed to accommodate the most demanding configurations and customise your chassis from A to Z.

Inside the beast! Manufactured with an all-black interior, Clone V has plenty of space to accommodate your components, with room for an ATX motherboard, graphics cards up to 310 mm long, or your CPU watercooling up to 160 mm high. You can mount up to 5 SSD disks, one of which can be mounted on the individual bracket on the back of the motherboard: ideal space for a boot disk and in the power supply compartment you can install two 3.5" disks.

Keep cool and Play: With space to install a total of 7 fans, Clone V comes with 3 pre-installed fans, one of which is an ARGB model. You also have the possibility to install an AIO Watercooling with enough space to install a 280 mm radiator at the front, a 240 mm radiator at the top and a 120 mm at the back of the case.

Intelligent backlighting with ARGB Lighting System: The 120 mm ARGB fan and the RGB LEDs on the front panel can be directly controlled by the dedicated button on top of the I/O Panel. It's up to you to choose the colour and effect that suits you from over 60 different modes. This brand new feature is made possible thanks to its HUB ALS: ARGB LIGHTING SYSTEM included. Scalable, it allows you to connect up to 4 Fans, or another component such as an RGB CPU cooler, for example. Its ARGB connectivity (3 pins / 5 Volts) makes the ALS Hub compatible with motherboards: ASUS Aura Sync, GIGABYTE RGB Fusion, MSI MysticLight Sync and ASRock Polychrome Sync to let your motherboard software take over the colours of your setup.



FEATURES

MOTHERBOARD

Compatibility	mATX / ATX
Extension ports	7

RETRO-ECLAIRAGE LED RGB

Compatibility	ARGB HUB Controller (4 fans max) + 60 RGB Modes included. ARGB 3 Pins / 5V Asus Aura Sync RGB Fusion Ready MSI Mystic Light Sync ASROCK Polychrome Sync

BAYS

2.5 "bays	SSD 2.5": x5 Or SSD 2.5": x3 if HDD 3.5" x 2
Modular bays	2 Metal cradles for 2.5" / 3.5" HDDs
3.5 "bays	HDD 3.5" : x2 Ou HDD 3.5" : x0 yes SSD 2.5" x 35")
5.25 "bays	Not ODD compatible, CD/DVD burner

CONNECTORS

USB 2.0	x1
USB 3.0	x1 Direct link to the motherboard
HD Audio (Headphone / Mic)	x1
LED color selector	RGB

DESIGN

Max height CPU	160 mm
Max size Graphic card	320 mm
Side wall	Tempered glass
Interior color	Black
Exterior color	Black
Case type	SPCC / ABS / Metal mesh / Tempered glass
Front	ABS + metal mesh and integrated RGB LEDs
Assembling	Management cable: 20mm Hand screw
Dimensions	Chassis (L*W*H): 37 x 20.5 x 45 cm . Cases (L*W*H): 42.5 x 20.5 x 46.2 cm
Weight	5 kg
Use	Gaming

COOLING SYSTEM

Number of fans	3 fans included Maximum number of fans: 7
Additional fan locations	4 additional slots
Fan (s) in front	2 x 120 mm pre-installed Watercooling compatible: 120 / 240 / 280 mm
Fan (s) in the back	1 x 120 mm ARGB pre-installed Watercooling compatible: 120 mm
Fan (s) at the top	2 slots for 120 mm or 140 mm Watercooling compatible: 120 / 240 mm

In HDD cages	2 slots for 120 mm
Watercooling compatible	120 / 140 / 240 / 280 mm
Dust filter	x1 magnetised on top x1 under the power supply compartment

POWER SUPPLY

Power Supply	Not included ! ATX - positioned at the back, at the bottom in a dedicated compartment
