WIRELESS HEADSET XPERT H900

Model: MIC-XH900

WIRELESS MADE FOR WINNER: The XPERT H900 headphones are wireless! It uses 2.4GHz Radio Frequency connection technology. It therefore offers sound: wireless with a range of 8 to 10 meters, ultra-low latency and without interference or loss of signal. Equipped with a remote control integrated into the left earpiece, it will allow you to instantly control the sound universe of your game: volume and mute.

12 HOURS AUTONOMY: this headset allows you to enjoy 12 hours of continuous play ... enough to keep Kills going until the early hours of the morning. The 900 mAh Lithium battery recharges in just 4 hours: time for a nap. And even if the headset is flat, just plug the included 3.5mm jack cable directly into your controller to continue triggering.

POWERFUL SOUND. Powerful 50mm speakers deliver crisp sound and powerful bass. XPERT H900 has been carefully designed to produce detailed sound so nothing escapes you! Explosions, shots, steps... real-time immersion whatever the type of game.

ENEMIES AHEAD! Giving clear and precise instructions to your teammates is crucial to victory. XPERT H900 offers these possibilities thanks to its omnidirectional microphone. Flexible, you can adjust it as close as possible to your mouth. Retractable: you can easily store it in its housing.

CIRCUM-AURICULAR DESIGN: With its imitation leather pads encompassing your ears and its padded headband, XPERT H900 guarantees you absolute comfort and perfect sound insulation. A refined style, a blue backlighting of the headphones that is discreet and stylish. It's certain! XPERT H900 will quickly become your brother in arms for long gaming sessions.
