AIRBLADE 1000 RGB 17" COOLER

Model: SOG-VE1000RGB

OPTIMAL COOLING: 2 silent RGB fans quickly cool your notebook for more intensive gaming sessions! Thanks to its micro-perforated aluminium coating, AirBlade offers a dynamic cold airflow for maximum cooling.

RGB LED BACKLIGHTING: On the design side AirBlade has RGB backlighting thanks to the fans and LED bars on the side. You can choose from 5 fixed colours: red, green, blue, turquoise, violet or one of the 5 predefined modes: breathing colours, loop colours, RGB star, RGB storm, RGB infinite, etc.

TAKE CONTROL: AirBlade is equipped with an LCD controller. This will allow you to turn the chiller on or off, to adjust the fan power with its 6 speeds and to control the RGB LED backlighting.

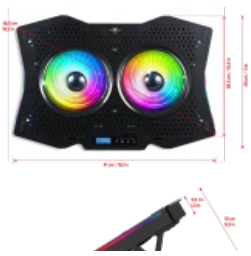
ERGONOMIC DESIGN: AirBlade offers true visual comfort and avoids uncomfortable and painful postures with its 8 adjustable positions. Adjust the inclination according to your needs from 8° to 30°. On the safety side, the aluminium dissipation tray is equipped with non-slip domes and a removable anti-fall stop.

COMPATIBLE FROM 10 TO 17 INCHES: AirBlade measures 41 x 28 x 34 cm. With its high-performance ventilation system, AirBlade also helps preserve the performance and life span of your notebook's computer components. It is even popular for cooling PlayStation, Xbox and other game consoles...

MAXIMUM EFFICIENCY: AirBlade is powered by your laptop via the USB port (5V): it does not require an electrical adapter. Another USB port is included to connect various peripherals, such as a Spirit of Gamer mouse for example!

SPECIFICATIONS :

Compatibility : up to 17 inches
USB Ports: USB x
LCD Controller: 10 LED Modes, 6 fan speeds, On/Off
Fans: LED 115 mm x2
Speed: 1200 RPM (± 10%)
Air Flow: 72 CFM
Noise level: 18 dBA
Chassis: Aluminium, ABS Plastic
Dimensions: 41 x 28 x 3.4 cm



FEATURES

VENTILATED STAND

Use	Portable cooler with LCD controller LED backlight 10 Modes : Fans and LED Strips
