SCREENGUARD 11.1 "SCREEN PROTECTOR

Model: PRO-E111

3-layer design to make it easier to put the film on your screen.

It can be cut to your liking, and adapted to all your LCD screen devices (camcorder or digital camera, laptop, PDA, etc ...)

Thanks to a smooth and brilliant treatment on the surface of the film, this product will make the image more beautiful with a brilliance of the colors.

Protects the screen from scratches, fingerprints, dust, static electricity and radiation. Increases the life of your devices with LCD screens

The best way to protect your LCD screen

Coming from a high-end manufacturing process, the SCREENGUARD film we have designed for you, is a product of exceptional quality, which improves the sharpness of the image and preserves common aggressions (scratches, dust etc ...).

A sharper, clearer image

This product has higher transparency compared to standard protective films; it has no influence on the rendering of colors. It brings a brilliant but sweet sight, and offers a more beautiful and alive image!
