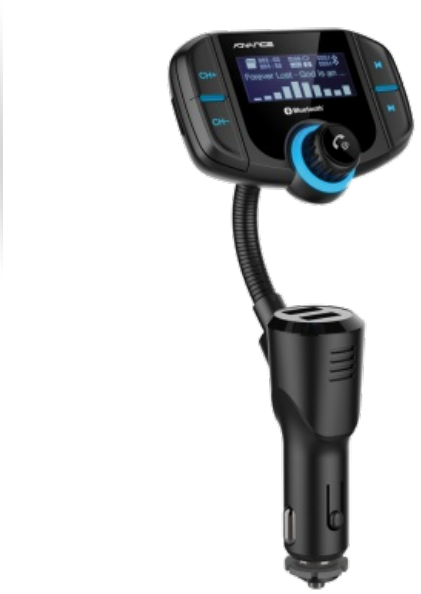
SMART DRIVE PRO BLUETOOTH FM TRANSMITTER



Model: FT-992BT

How does it work? Simply plug Smart Drive Pro into the car's cigarette lighter socket, set your car's FM radio frequency to a free station, then tune the FM transmitter to the same frequency with your car radio. Then connect your smartphone with Smart Drive Pro via Bluetooth.

Bluetooth 4.2: Get a solid and stable connection for your music or hands-free calls

Hands-free calling: Make your calls hands-free while driving with advanced technology isolates your voice for clear calls.

Broadcast your playlist: 4 playback sources, connect via Bluetooth, microSD card, USB key, auxiliary cable... to play your playlists on the FM frequency.

Quick Charge: intelligently identifies your device to provide high-speed charging from the orange USB port (2.4 A Max - Qualcomm QC 3.0).
